Swap Your Ride

Matt Weber
Hanna Loboda

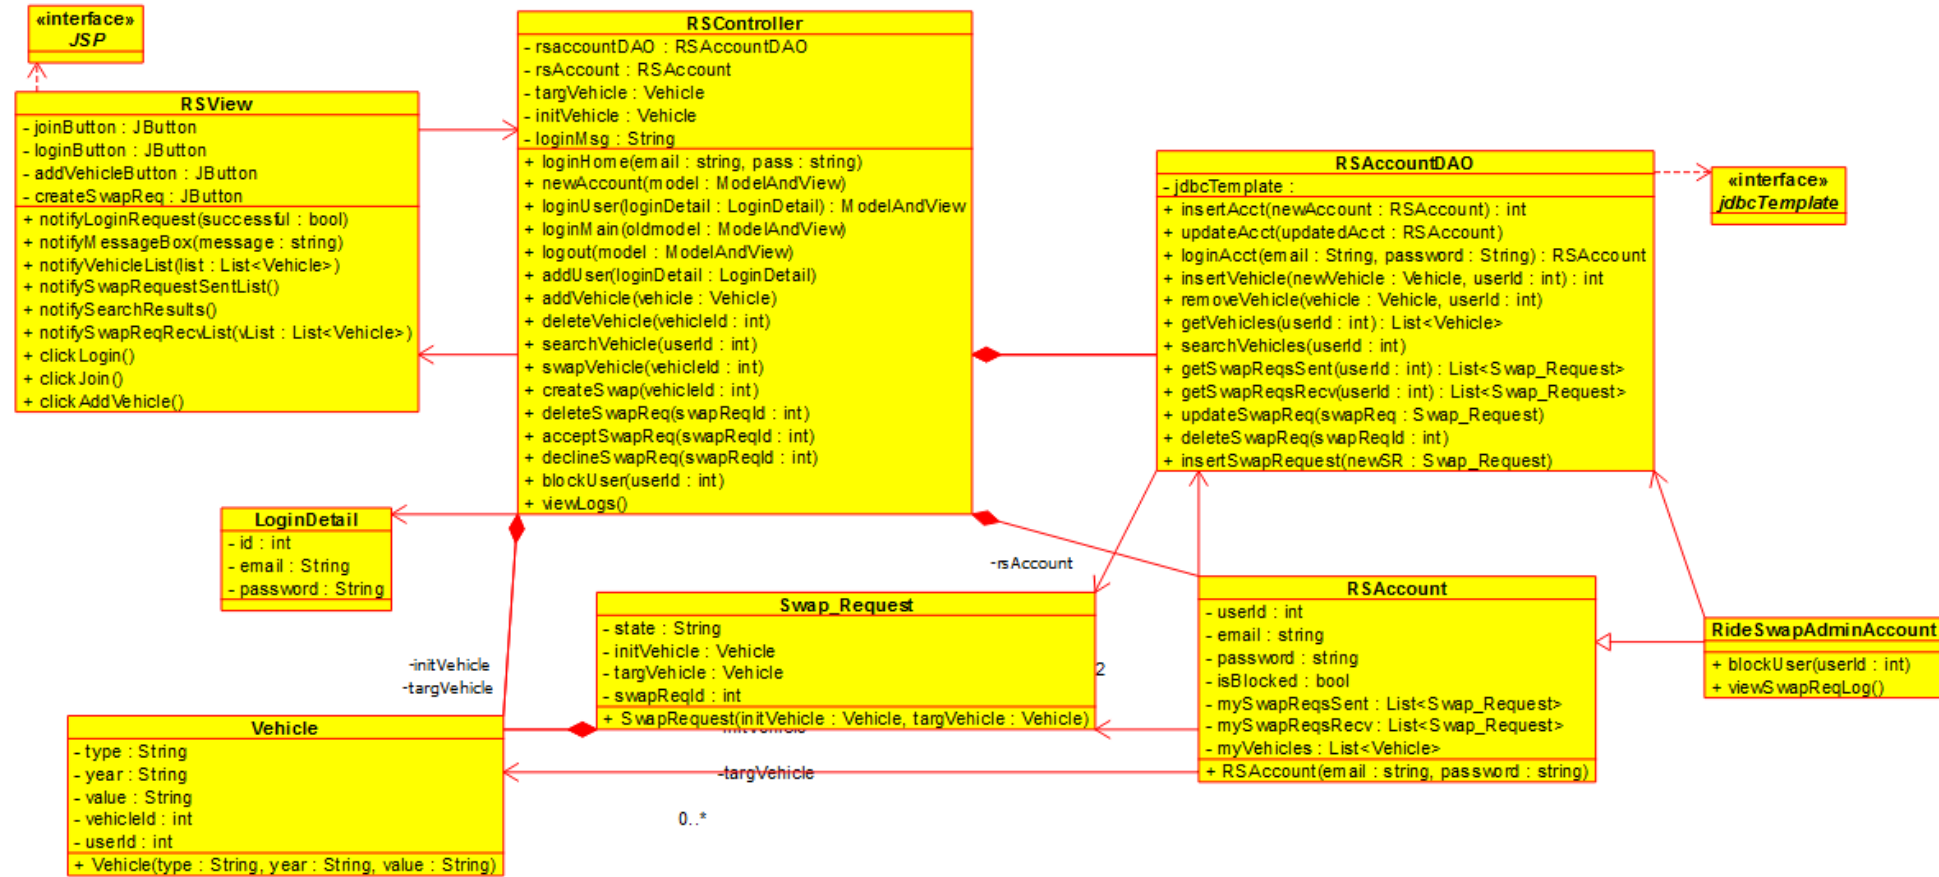

Swap Your Ride

- A website that lets users swap vehicles
- Users add their vehicles and search other user's vehicles
- Users propose swap requests, which the other user can accept or decline

Swap Your Ride

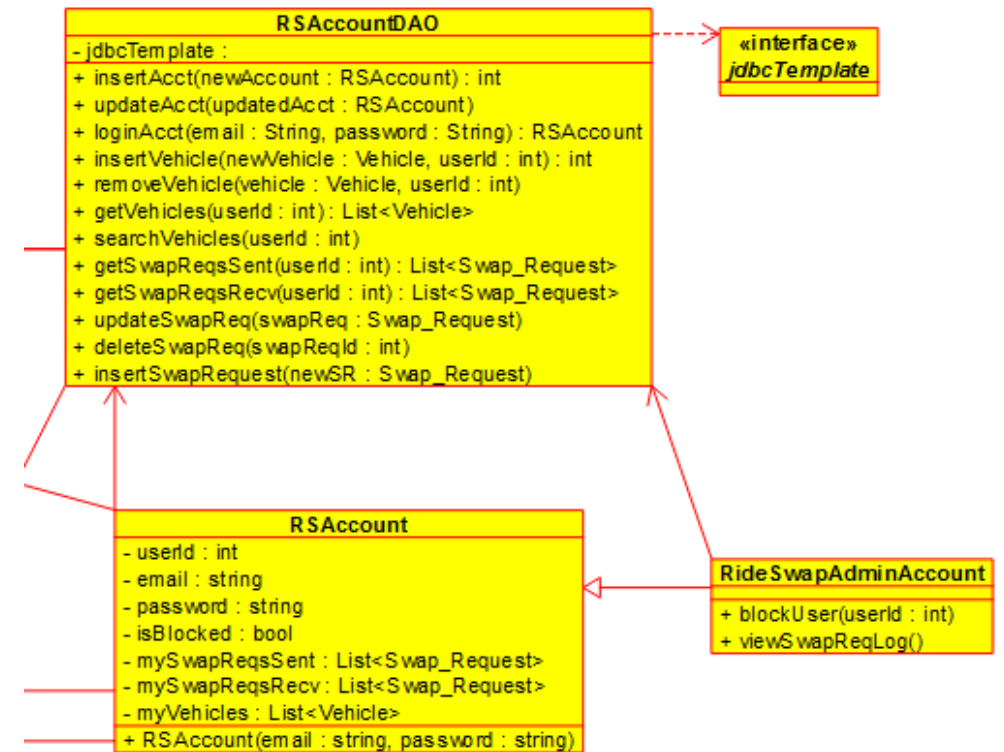

- Spring MVC architecture
- JSP files for web data
- MySQL for the database
 - Utilizes JDBC

Swap Your Ride

Swap Your Ride

- Design Patterns
 - Not many applicable to our project
 - Turned the DAO class into a Factory

Swap Your Ride
